- Hospital Security Measures

All areas on the 3<sup>rd</sup> floor are locked and require an access code for visitors to gain access.

Infant Security System in place.

# Birth and Family (Mother Baby) Unit

**Sparrow is a Baby Friendly Hospital!!!!**

We promote:

- Routine Skin to Skin
- Rooming In
- Breastfeeding and Breastfeeding support
- Support person Skin to Skin
- It is important and strongly encouraged that you have someone stay with you to assist with baby (This person must be 18 years or older)

Family

# Postpartum & Discharge

- As soon as you arrive at the hospital, we will be preparing you for discharge
- You will receive lots of education and a list of Community Resources
- When you are ready for discharge, you will need the following:
  - A discharge for mom
  - A discharge for baby
  - A follow up appointment made for baby (24-72 hours after discharge)
  - Baby will need to have had:
    - A hearing screen
    - MDPH (genetic testing required by the State)
    - CCHD screen (testing for heart defects)
    - Circumcision (if applicable and desired)
  - A car seat for baby

# Birth Records

A Caregiver from our Birth Records team will come around to complete the birth certificate and social security information.

## What you need:

- 1) Mom's ID
- 2) If not married and father of baby is going to be on the birth certificate, he will need to be here to sign the birth certificate and have a valid government ID.
- 3) Both mom and dad's social security numbers

# Consents you will sign while in the hospital:

- 1) Consent for Treatment for mom
- 2) Consent to bill for care provided for mom
- 3) Release of Responsibility for valuables for mom
- 4) Consent for Surgery, induction or other procedures
- 5) Consent for Treatment for baby
- 6) Consent to bill for care provided for baby
- 7) Release of Responsibility for valuables for baby
- 8) Biotrust
- 9) Hepatitis B Vaccine (Consent or Refusal)
- 10) Circumcision (if applicable and desired)
- 11) Safety Agreement (Safe Sleep practices)
